## *Porki Pig* **COMPLETE PELLETT**

**Sgt Dan PORKI PIG** is a complete diet for grower finisher pigs and is suitable for feeding from 20kg through to slaughter. It is also suitable for feeding to dry sows and boars.

**SGT Dan PORKI PIG** is a high energy diet formulated with New Zealand grown grains as the main energy source. The use of high quality protein sources means that **Sgt Dan PORKI PIG** provides a range of amino acids essential for lean tissue deposition.

**Sgt Dan PORKI PIG** is formulated with added vitamins and minerals for skeletal development, to support immunity and aid growth.

### **Recommended feeding rate:**

- Ensure clean fresh water is always available.

#### ***Grower / Finisher pigs***

- Feed *ad lib* from 20kg till slaughter.
- Feed intakes will increase with increasing pig size to approximately 2kg/day at 60kg bodyweight and 2.5kg/day at 100kg bodyweight.

#### ***Dry sows and boars***

- Feed at 2 – 2.5kg per pig per day depending on body condition.
- Increase amount offered in cold weather.
- Do not feed *ad lib*.
- Do not allow pregnant sows to become overfat.

### **Typical analysis** (*As fed basis*)

Minimum Crude Protein (%)	11
Maximum Fat (%)	4
Maximum Crude Fibre (%)	6
