Velvet Plus **DEER NUTS**

Sgt Dan VELVET PLUS DEER NUTS are specially designed to maximise antler growth and velvet production.

A high protein, high energy grain based supplement which can be fed to velvetting stags to improve velvet quality and antler growth.

Sgt Dan VELVET PLUS DEER NUTS are formulated with a range of quality rumen by-pass proteins, added sulphur amino acids, biotin and organic zinc to optimise antler growth. Vitamins and important trace minerals including copper, selenium, cobalt and iodine are included for stag health and immunity.

Produced as a 10mm nut, **Sgt Dan VELVET PLUS DEER NUTS** are easy to feed in the paddock or in troughs.

Recommended feeding rate:

Sgt Dan VELVET PLUS DEER NUTS should be introduced gradually, with target feed intakes achieved over two to three weeks.

- Feed between 1 and 2kg per head per day, depending on type, size and age of deer, expected performance and forage availability and quality.
- Always feed in conjunction with *ad lib* pasture or silage.
- Ensure that fresh clean water is available at all times.
- Ensure adequate feeding space is provided for all animals to access nuts simultaneously to prevent over consumption.

Typical analysis (*Dry Matter basis*)

Minimum Crude Protein (%)	19
Maximum Fat (%)	5
Maximum Crude Fibre (%)	10
Maximum Salt (%)	2

Ingredients selected from:

Barley, Wheat, Peas, Soyabean Meal, Canola or Rapeseed Meal, Cottonseed Meal, Copra Meal, Molasses, Vegetable Oils or Fats, Limestone, Dicalcium Phosphate, Salt, Bentonite, Amino Acids Vitamins and Trace Minerals, Flavouring.
