Winter DEER PELLETS

Sgt Dan WINTER DEER PELLETS are formulated to support metabolisable energy intake in deer over winter. Produced using a combination of New Zealand grown grains and palm kernel meal as well as added macro and trace minerals, **Sgt Dan WINTER DEER PELLETS** provide a cost effective alternative to low quality forages for deer supplementation over winter. Manufactured as a 10mm pellet, the **Sgt Dan WINTER DEER PELLETS** are ideal for feeding out in troughs or on the ground.

When fed at 250g per head per day this diet provides 30mg zinc, 9mg copper, 0.35mg iodine, 0.2mg cobalt, 0.2mg selenium, vitamins A, D3 and E.

Recommended feeding rate:

Feed **Sgt Dan WINTER DEER PELLETS** in conjunction with *ad lib* pasture or silage, introducing the pellets gradually and building up to target feed intakes over one to two weeks.

- Feed between 200 – 500g per head per day depending on the type, sex, size and age of deer, expected performance and forage availability and quality.
- Always feed in conjunction with *ad lib* pasture or silage.
- Ensure that fresh clean water is available at all times.
- Ensure adequate feeding space is provided for all animals to access pellets simultaneously to prevent over consumption.

Sgt Dan WINTER DEER PELLETS are ideal for feeding to through May, June and July.

For optimal velvet production, feed **Sgt Dan VELVET PLUS DEER NUTS** from early August till velvet regrowth is cut.

For optimal growth of yearlings, feed **Sgt Dan HIGH ENERGY NUTS** from early August.

For optimal growth of fawns, supplement Hinds with **Sgt Dan HIGH ENERGY NUTS** from January through till weaning. This, combined with feeding through mating, may also help support early conception in hinds.

Optimal weaner growth post weaning can be achieved by supplementing with **Sgt Dan HIGH ENERGY NUTS** from weaning through till April.

Typical analysis (Dry Matter basis)

Minimum Crude Protein (%)	12
Maximum Fat (%)	6
Estimated ME (MJ/kg)	12
Typical NDF (%)	38
Typical Starch & Sugars (%)	37
Minimum Calcium (%)	1
Maximum Phosphorus (%)	0.5

Ingredients selected from:

Wheat, Barley, Grain By-Products, Palm Kernel Meal, Peas, Rapeseed Meal, Soyabean Meal, Vegetable Oils or Fats, Molasses, Limestone, Salt, Magnesium Oxide, Dicalcium Phosphate, Bentonite, Vitamins and Trace Minerals, Palatant.
