

# Horse and Pony Pellets

*For over 100 years our mill has been working with Southland farmers, taking the golden grains grown in the deep south, and producing a product of the highest standard. Today, still true to our heritage, we carefully select Southland grains and blend these with protein rich South Island grown peas, canola and linseed to bring you a rich, nutritious feed, helping you provide the best quality nutrients for your animals.*

**Old Mill Horse and Pony Pellets are a multipurpose feed suitable for mature horses and ponies not in work or in light to medium work. The pelleted form prevents sifting, making Old Mill Horse and Pony pellets ideal for picky eaters.**

## HOW SHOULD I FEED HORSE AND PONY PELLETS?

- Old Mill Horse and Pony Pellets are made to complement available forage.
- Always allow access to a good quality forage with an expected forage intake of 1.5 to 2% of the bodyweight of the horse each day.
- Feed small amounts often (e.g. 2 - 3 meals a day) to avoid digestive upsets.
- Always introduce new feeds gradually.
- Ensure clean fresh water is available at all times.

## HOW MUCH SHOULD I FEED?

Old Mill Horse and Pony Pellets should be fed according to the weight, body condition and workload of the horse. The amount of feed required will also depend on the quality and quantity of forage provided. These rates are a guide only.

| Horse weight (kg) | Expected Forage Intake (kg DM/horse/day) | Feeding Rate (kg/horse/day) |            |               |
|-------------------|--|-----------------------------|------------|---------------|
|                   |  | Maintenance                 | Light Work | Moderate Work |
| 300               | 4.5 - 6                                  | < 1                         | 1 - 2      | 1.5 - 2.5     |
| 400               | 6 - 8                                    | < 1.5                       | 1.5 - 2.5  | 2 - 3         |
| 500               | 7.5 - 10                                 | < 2                         | 2 - 3      | 2.5 - 3.5     |
| 600               | 9 - 12                                   | < 2.5                       | 2.5 - 3.5  | 3 - 4         |

## TYPICAL ANALYSIS (As Fed Basis)

|                       |     |
|-----------------------|-----|
| CRUDE PROTEIN (% MIN) | 11  |
| DE (EST.) (MJ/KG)     | 12  |
| CRUDE FAT (% MAX)     | 3.5 |
| CRUDE FIBRE (% MAX)   | 8   |
| SALT (% MAX)          | 1.5 |

## INGREDIENTS

ALL OLD MILL FEEDS ARE MADE WITH **NON-GE** GRAINS AND PROTEIN MEALS.

Wheat, barley, canola meal, peas, molasses, limestone, salt, dicalcium phosphate, magnesium oxide, bentonite, mould inhibitor, enzymes, vitamins and minerals.
