

Multi Nuts

For over 100 years our mill has been working with Southland farmers, taking the golden grains grown in the deep south, and producing a product of the highest standard. Today, still true to our heritage, we carefully select Southland grains and blend these with protein rich South Island grown peas, canola and linseed to bring you a rich, nutritious feed, helping you provide the best quality nutrients for your animals.

Old Mill Multi Nuts are a rich source of starch and energy suitable for feeding to all classes of ruminant animals. Ideally suited to help increase weight gain, Old Mill Multi Nuts can also be used to help overcome a feed shortage.

How Should I Feed Multi Nuts?

- Old Mill Multi Nuts are made to compliment the forages available on your property. Feed pasture and silage *ad lib*.
- Introduce Old Mill Multi Nuts gradually, slowly increasing the amount fed every two to three days, so that target feed intakes are reached after two to three weeks.
- Make sure all animals have access to Old Mill Multi nuts at the same time to prevent over consumption.
- Ensure clean fresh water is available at all times.

How Much Should I Feed?

The correct amount to feed depends on the class of animal, it's size, whether it is dry, pregnant or lactating, the amount of other feed on offer and expected performance.

SHEEP (UP TO 40KG): up to 100g per head per day.

SHEEP (OVER 40KG): between 100g to 200g per head per day.

GOATS: between 150g to 400g per head per day.

DEER: between 100g to 500g per head per day.

CATTLE (WEANERS): up to 2kg per head per day.

CATTLE (STEERS, HEIFERS, BULLS): up to 3kg per head per day.

TYPICAL ANALYSIS

CRUDE PROTEIN (% MIN)	12
CRUDE FAT (% MAX)	4
CRUDE FIBRE (% MAX)	10
SALT (% MAX)	10

INGREDIENTS

ALL OLD MILL FEEDS ARE MADE WITH
NON-GE GRAINS AND PROTEIN MEALS.

Wheat, barley, grain by-products, canola meal, peas, limestone, salt, dicalcium phosphate, flavourings, vitamins and trace minerals.
