

# Pullet Grower

For over 100 years our mill has been working with Southland farmers, taking the golden grains grown in the deep south, and producing a product of the highest standard. Today, still true to our heritage, we carefully select Southland grains and blend these with protein rich South Island grown peas and canola meal, to bring you a rich, nutritious feed, helping you provide the best quality nutrients for your animals.

Old Mill Pullet Grower is a crumble made of New Zealand grown grains and rich protein sources, essential amino acids, minerals and vitamins formulated to provide the balanced nutrition required by growing pullets.

Formulated with high quality protein and energy sources, Old Mill Pullet Grower is also suitable for breeding poultry (such as quail, turkeys, pheasant and ducks) during rearing or when birds are not in lay.

## How Much Should I Feed?

- Feed *ad lib* from 19 weeks of age or from first egg.

### Laying Hen Chicks

- Feed from approximately 6 weeks of age up to point of lay.
- Feed consumption from 6 weeks to 19 weeks of age will be approximately 5kg per bird.

### Other Poultry

- For adult birds feed *ad lib* during the non-breeding season.
- For rearing birds feed from approximately 8 weeks of age.
- Ensure clean fresh water is always available.

## TYPICAL ANALYSIS (As Fed Basis)

CRUDE PROTEIN (% MIN)	15
CRUDE FAT (% MAX)	4
CRUDE FIBRE (% MAX)	6
CALCIUM (% MIN)	1

## INGREDIENTS

ALL OLD MILL FEEDS ARE MADE WITH **NON-GE** GRAINS AND PROTEIN MEALS.

Wheat, barley, maize, canola meal, peas, canola oil, limestone, oyster shell grit, dicalcium phosphate, sodium bicarbonate, salt, amino acids, enzymes, vitamins and trace minerals.
